Pension plan

R-Pension and **R-Vie Pension** are two tax-efficient savings plans that allow you to build up a valuable pension pot, so you can make the most of your retirement.

- **R-Pension**
Regularly invest an amount of your choosing in one of the sub-funds of the Lux-Pension investment fund (SICAV). The return on your capital is largely dependent on financial market trends. As a result, both the return and the capital invested cannot be guaranteed.
- **R-Vie Pension**
Opt for a traditional life insurance policy with regular payments and a guaranteed capital sum on maturity, no matter what happens. Under this policy, you can also nominate a beneficiary in case you die before reaching retirement.

Home savings account

In cooperation with our partner **Wüstenrot Bausparkasse AG**, Raiffeisen offers you the opportunity to take out a home loan savings plan. This is a tax-efficient way to build up capital that you can then use to buy, convert or renovate your main home.

Life insurance

R-Vie Protect and **R-Junior** are life insurance products that you can use to save for the future and protect your loved ones, while optimising your taxes.

- **R-Vie Protect**
By paying in regular premiums, you can build up a savings pot to enjoy in later life, while protecting your loved ones in the event of your death. This product combines savings and provident insurance.
- **R-Junior**
With R-Junior, you can build up savings for your children and protect them in the event of your death. This product combines savings and financial security.
